Critics of Wheels

Can find no fault with the WAVERLEY. They don't try. Every part of it is as near perfection as years of study and experiment can bring it. It has been subjected to every possible test, and it has stood them all. It's not only strong, safe and serviceable, but graceful, light and beautiful. And its price, too—only \$10.00, is a strong inducement. Can you ask for more in a wheel?

W. N. WHITE, 108 High St., Portsmouth, Va.

SENT HOME FOR BURIAL.

LORD HERSCHELL'S BODY TRANSFERRED TO BRITISH WARSHIP.

(By Telegraph to Virginian-Pilot.)

New York, March 7.—The body of Lord Herschell, accompanied by C. W. Cartwright, Secretary to the Canadian Commission, and H. Williamson, private secretary, arrived at Jersey City this morning at about 7 o'clock from Washington. The British cruiser Talbot, ordered here from Bermuda to carry the body home, was anchored off Red Bank, prepared to receive it. Lord Herschell's body was received at the Jersey City station by Commander John Philip, Lieutenant Commander Kelley and an escort of fifty marines from the Brooklyn navy-yard. It was immediately carried aboard the navy-yard tug Narkeeta, and taken to the Talbot.

When the special train arrived, twenty-five British sailors, wearing straw hats and thin blouses, were drawn up on the platform.

The United States marines were then drawn up at the exit, as the body was wheeled past, they presented arms, and the drummer sounded four ruffles, the highest honor.

Captain Gamble, in command of the Talbot, said that the cruiser would sail as soon as possible and make the best possible speed home. He was supplied with coal and water early to-day, that there might be no unnecessary delay on this account.

THE NICARAGUA CANAL.

PRESIDENT ELECTED TO APPOINT ADDITIONAL ENGINEERS.

(By Telegraph to Virginian-Pilot.)

Washington, D. C., March 7.—The President brought to the attention of the Cabinet at to-day's session the provision of the river and harbor act, relative to the construction of the Isthmian Canal. The purpose was to decide upon the measures to be adopted to carry out the direction of Congress to make a thorough examination of the various routes, Nicaraguan and Panama, and report the result to the next session of Congress. It was realized that the task set was well nigh impossible of compliance on account of the enormous amount of the work involved in a thorough examination of even one route, as was shown by the fact that the Walker commission, under the Admiral's energetic direction, was not able to present more than a mere outline of the survey made last Summer of the Nicaraguan route.

No decision was reached to-day as to the details, but it is believed that the President will have recourse to the plan of appointing one or two additional members to the Walker Commission and extending the functions of that body to cover the whole field, in Columbia, as well as in Nicaragua and Costa Rica.

ELECTRICAL RECORD BROKEN

MAN SURVIVES SHOCK OF TWO THOUSAND VOLTS.

(By Telegraph to Virginian-Pilot.)

New York, March 7.—Joseph Hampel, an employee of the Lexington Avenue Cable power-house, while working at his switch-board, received and survived an electric shock of about 2,000 volts. The man's body was burned black from head to foot; every stitch of clothing was torn from him, and he fell senseless through a hole instantly, and was burned in the floor by the current. Hampel is expected to live.

ONLY ONE CASE ON RECORD.

The doctors who attended him say there is no case on record of a man withstanding a similar shock. The accident was caused through Hampel trying to tighten a loose screw on the switch-board and in some way creating a circuit. The enormous power of the shock may be judged from the fact that until the circuit was readjusted all the cars on the road were brought to a standstill.

McKinley Will Take a Trip.

(By Telegraph to Virginian-Pilot.)

Washington, March 7.—The President to-day definitely decided to take a short trip south for rest, his destination being Thomasville, Ga., where he will be the guest of Senator Hanna. The President will be accompanied by Mrs. McKinley and some of their relatives, who are at present stopping at the White House. It is the purpose of the President to make this trip one exclusively for rest, so he will make no speeches, and hopes to be relieved of public attentions as much as possible. It is possible that if the weather favors the Presidential party will go to Savannah from Thomasville, and going aboard the Dolphin, make a short voyage in the warm waters of Florida and Georgia.

Liberal Brethren Win Over Radicals

(By Telegraph to Virginian-Pilot.)

Cincinnati, O., March 7.—The United States Court of Appeals to-day rendered a decision involving the title to the large publishing house at Dayton, numerous colleges and thousands of churches held in the name of the Church of the United Brethren in Christ. The case grew out of a division in this church many years ago, since which time one division has been known as the Liberals and the others as the Radicals. The decision rendered by Judge Burton was from an unanimous court and it sustained Judge Taft in giving the property to the Liberals as against the Radicals.

A Hearing on Improvements

(By Telegraph to Virginian-Pilot.)

New York, March 7.—The Mississippi Valley Commission gave a hearing to-day to Representatives of the principal cities along the river relative to the allotment of the \$2,253,000 appropriated by the Government for the improvement. Outside of Congressional delegations from Washington, not over a dozen persons were present. Louisiana's and Mississippi's representatives were heard to-day, their pleas being generally for increased allowances for levees. The hearing will be continued to-morrow and Thursday.

Gen Eagan Off.

(By Telegraph to Virginian-Pilot.)

Washington, D. C., March 7.—Commissary General Charles P. Eagan, who has remained in Washington since the court-martial suspending him from the service, on account of his attack on General Miles, left Washington to-night for the West. He will go to San Francisco and thence embark for Honolulu, where he has a son who is largely interested in coffee plantations.

BERKLEY.

Mr. J. H. Floyd, who, while engaged in the erection of a building on Liberty street extended several days ago, had the misfortune to break his left arm, the result of a piece of timber falling on it, is much improved.

Mrs. E. M. Bury is quite sick at her home on Eleventh street.

A meeting of the mothers will be held Thursday at 3 p. m., at the residence of Mrs. M. E. Garrett, on Pendle street. This occasion will be made interesting by an address from Mrs. Duncan. All of the mothers are expected to be present.

The "Magic Strike" party given at the residence of Mrs. Borum, on Pine street, last night, was largely attended. The program consisted of solos and recitations.

Most all of the out-door work on the mill yards was suspended yesterday on account of the snow storm, and business in general was greatly affected for the day. The owners of wood yards were kept busy supplying orders, an evidence that people do not provide for storms when good weather prevails.

Berkley Lodge, No. 48, K. of P., will have four initiations at their next meeting.

Rev. T. C. Skinner is residing at the residence of Mrs. Wood, on Main street.

COTTON STATISTICS.

HESTER'S ANALYSIS OF THE MOVEMENT FOR SIX MONTHS.

(By Telegraph to Virginian-Pilot.)

New Orleans, March 7.—Secretary Hester's analysis of the cotton movement for the six months of the season, September 1st to the close of February inclusive, shows that compared with the corresponding movement last year, Texas, including the Indian Territory, has brought into sight this season in round figures 425,462 bales more, while other Gulf States, which include Arkansas, Louisiana, Mississippi, Tennessee, Missouri and Oklahoma, have marketed 476,492 less, and the group of Atlantic States, which includes North and South Carolina, Georgia, Florida, Alabama and Virginia, shows a decrease of 116,696. In other words all of the States outside of Texas and Indian Territory have decreased 593,488 bales against an increase for Texas and the territory of 425,462, leaving the net decrease in the total of crop marketed of 167,727.

Mr. Hester shows the amount brought into sight by groups of States for the six months of this season as follows:

Texas and Indian Territory, 3,179,734 bales, an increase over same time last year of 425,462. Other Gulf States, 2,707,570, a decrease under last year of 476,492; Atlantic States, 3,523,238, decrease under last year of 116,696. Total crop in eight at close of February, 9,410,542, a decrease under last year of 167,726, and an increase over the year before last of 1,798,445.

A Mammoth Soap Trust.

(By Telegraph to Virginian-Pilot.)

Chicago, March 7.—Plans for the formation of a mammoth soap trust were discussed to-day at the meeting of Chicago soap manufacturers, called for the purpose of taking some action in regard to the prices of soap, which, it claimed, are ruinously low. Though the inception was purely a local one, it is said that prospects are now good for a combination taking in every large soap manufacturer in the United States. A capitalization of fully \$75,000,000 will be represented if this plan is carried out.

The Pope is Cured.

(By Telegraph to Virginian-Pilot.)

Rome, March 7.—The following bulletin was issued this evening:

"The condition of the Pope continues very satisfactory. His functions are normal."

"As the august patient must be considered cured, as regards the operation, no further bulletins will be published."

OPINIONS OF THE PRESS.

THE ISSUE FOR 1900.

Atlanta Constitution. The views of Senator J. K. Jones, chairman of the National Democratic Executive Committee, printed elsewhere, are simply in the line of national development.

The great issue before the people of any country is that of the greatest internal importance. In the shrinkage of values which have taken place in this country during the last twenty years, the people have recognized the hand of adverse financial legislation. According as the currency of money supply were cut off, paralysis spread into every line of business, first attacking the productive industries and the farm, and finally destroying the prosperity of cities and large financial institutions. Spurts of prosperity have come to the country between times, owing to the wonderfully recuperative character of our country, but still, in spite of abundant nature and intense individual industry, no permanent prosperity has come.

The political parties which started out handicapped by the leadership of Wall street on both sides have many taken position as to what the remedy must be. The Republican party, after a period of dodging under the cover of international agreement, has finally drifted away into the extreme gold standard policy. The Democratic party, having effectually shaken off the "old men of the sea," who were weighting it down, has declared for a wholesale and thorough financial reform, which can only be brought about by a return to the money of the constitution. Notwithstanding the intricacies, it succeeded in casting them out and polling nearly 7,000,000 votes.

That such a fight as this should have been waged, with the result of attracting so large a vote, is evidence of too strong a position to be surrendered at the bidding of the enemy, or in consequence of bogus issues set up by the enemy, and is not for one moment to be considered. The Democratic party, in national convention, has declared its faith, which has been indorsed by a larger vote than was ever cast for a Democratic issue before. When the people meet again in national convention they will meet with a full knowledge of their strength and of the righteousness of their cause, and it is safe to say that they will meet the enemy in the campaign of 1900 on the same ground upon which they were met in 1892, and that they will win.

Chairman Jones, therefore, in making the statement which he does, does not need the gift of prophecy for so declaring, because the issues are now so fixed as to be beyond the power of any man to change them.

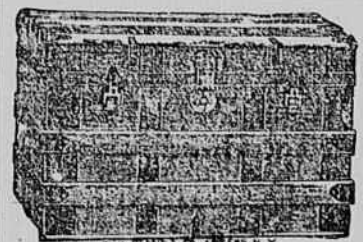

The good name of

Allcock's POROUS PLASTERS

has induced many persons to deceive the public by offering plasters which are not only lacking in the best elements of the genuine article, but are often harmful in their effects.

The public should be on their guard against these frauds, and, when a plaster is needed, be sure to insist upon having the best. When you buy Allcock's you obtain absolutely the best plaster made.

THE ACHE AND PAINS OF RHEUMATISM

Flow away like snow under the warm rays of the sun by the use of Aunt Mary's Rheumatic Cure.

The old nurse's Sure Cure for Rheumatism. Not a patent medicine, but a purely vegetable compound carefully prepared. Established 1860.

Aunt Mary's Rheumatic Cure improves the digestion, builds up the shattered system, and neutralizes the acid condition of the blood. The principle cause of rheumatism.

PRICE FOR A LARGE BOTTLE, \$1.00. If you suffer from the torture of Rheumatism we will make you this offer for a short time only. Cut this card out and send it with \$1.25 in a registered letter, or with postal money order, and we will send you (express prepaid) 2 large size one dollar trial bottles of Aunt Mary's Rheumatic Cure, which will cure any severe case of rheumatism. As this only pays the expressage, cost of ingredients, packing, etc., only two trial bottles will be sent to one address at this price. Address MARY MILLER CO., 1105 S. Eighth st., Philadelphia, Pa.
